

HARRY WINSTON

# BRIDAL COUTURE

THE HOUSE *of* HARRY WINSTON *introduces a*  
CAPSULE COLLECTION *of* DIAMOND ENGAGEMENT RINGS

Inspired by the extraordinary intricacies and elements of a bespoke wedding gown. Entitled Bridal Couture, the collection consists of eight unique designs that celebrate the beautiful artistry behind the great bridal ateliers of the world. Beyond the ring, one of the most prolific symbols of a wedding is the gown – an exquisite custom design that speaks to the individual beauty of its wearer.

From conception to completion, the creation of a couture wedding gown perfectly mirrors the creation of a one-of-a-kind Winston engagement ring.

It starts with a dream and ends with something so exquisite and rare. An original hand drawn design sketch inspires the selection of only the finest materials, and culminates with an exquisite level of craftsmanship, where each and every detail is executed with the utmost level of precision. Honoring the magnificent design process behind these two arts, the new Bridal Couture Collection highlights various diamond cuts and complements the signature elements of a bride's wedding day ensemble.

Recalling the exquisite corset lacing of a couture gown, a pear-shaped diamond center stone is elegantly draped between two interlacing diamond ribbons. A symbol of two souls becoming one, this modern setting highlights the beauty of the tear-drop silhouette and perfectly accents a modern day bride.

# HARRY WINSTON

Flanked with a cluster of marquise and pear-shaped diamonds, an emerald-cut diamond ring recreates the delicate open-weave fabric of a romantic Chantilly lace.

One of the most traditional symbols of a wedding is the love knot motif – representing a couple’s unbreakable bond and eternal connection. In this one-of-a-kind setting, a cushion-cut center stone is given prominence by round brilliant diamonds that are expertly set into a love knot motif.

HARRY WINSTON

Surrounded by a double halo of round brilliant and, pear- and marquise-shaped diamonds, a round brilliant engagement ring mimics the beautiful crystal embellishments and adorns sewn into a wedding gown.

The always romantic bow is reimagined with an oval-shaped ring that celebrates the ultra-feminine motif in a platinum setting.

## HARRY WINSTON

If the gown is a work of art, then the wedding veil is the final brushstroke that completes the masterpiece. Whether traditional or modern, the veil is a significant adornment that represents a bride's pure love. Like a couture gown, each veil is specially made for its wearer with designs as intricate, as they are delicate. Taking inspiration from this meaningful headpiece, the House of Harry Winston used its technical expertise to create two new rings inspired by the movement and artistry of a veil. Classic yet unexpected, each design features various diamond cuts to create a piece as remarkable as your romance.

Influenced by the elaborate embroidery on Chantilly lace veils, a round center stone is set between two overlapping ribbons of mixed-cut diamonds. Mimicking the fabric's fluid movement, each line of diamonds gracefully wraps around the platinum band.

Once lifted, the veil frames a bride's face, revealing to her beloved all the joy and love she feels, for the very first time. Evoking this magical moment, an impressive emerald-cut diamond is nestled in a halo of diamonds with baguette diamond accents to emphasize the natural beauty of the center stone.

# HARRY WINSTON

A tribute to the more avant-garde styles with asymmetrical hemlines, two marquise-shaped diamonds, of approximately the same carat weight, rest side-by-side on a diamond and platinum band.

With a ring for every style and for every bride, the Bridal Couture Collection continues to uphold Mr. Harry Winston's belief that life's most meaningful moments should be marked with exquisite jewels and furthers the House's commitment to quality and craftsmanship at the highest level.

Harry Winston's Bridal Couture Collection will be available at select Harry Winston salons worldwide.
