

Germany since 1898

A THANK-YOU FOR MOM AND DAD

No one teaches us the art of living like our parents, supporting us in every situation with love and devotion. The LIMBO by RIMOWA offers the right balance for every chapter of life, and combines a lightweight suitcase shell made of polycarbonate with a strong aluminum frame. Robust and attractive. Just the right gift for Mother's and Father's Day.

Germany since 1898

About RIMOWA

RIMOWA is one of the leading premium brands worldwide for cases made from aluminum and the high-tech material polycarbonate, and it is one of the few manufacturers of travel luggage still producing in Germany. One could say that RIMOWA is probably the only manufacturer with a history stretching back over more than 118 years with a distinctive, deep-rooted tradition - an exceptional position in the industry. To RIMOWA, 'Made in Germany' and 'German engineering' are synonymous with outstanding materials, brilliant technology and extraordinary product design, crafted to the highest possible quality. For decades now, the identifying feature of the collections, which are being continually optimized, has been the elegant and unmistakable groove structure of the case shells. The traditional company is based in Cologne, has four production facilities worldwide including Czech Republic, Canada and Brazil, and sells its products in over 65 countries worldwide through selected dealers and its own stores, the number of which is being continuously expanded across the globe.

The RIMOWA Ala Moana Center and Waikiki store have one of the largest selections of RIMOWA in the USA, with many lines not carried anywhere else. RIMOWA is most recognized for its line of premium aluminum and polycarbonate luggage and suitcases, and has stores worldwide in Hong Kong, Rio de Janeiro, Seoul, Singapore and Taipei, to name just a few.
